Langdale Half M and Marathon

Kevin and Jon at the Langdale Marathon and Half Marathon.

Kevin 3rd M55 in 3:46:18. Very impressive on a marathon course with 3266 ft of elevation gain, that's 8:35 min/mile pace.

Jon did 1:54:29 for the half M, 1637 ft of climb at 8:41min/mile pace so another great run.

ABBEY DASH

Robert Dickinson 43:08

Karen Sinkinson 2nd F60, 46:59

WYCC Race 2, Nunroyd Park

A bit muddier than the first race but stayed fine on the day. A few more out for this second race as Race 1 clashed with fell relays.

Age Group PB's

Have you run an age group PB in the last year or so? We keep records of the best 10 times for each 5 year age group from 35 years upwards, for both men and women for all the usual road race distances. Check out the records via the links on the Vets Section of the HH website at <https://www.holmfirthharriers.com/sections/vets/> . If you have a time that would fit in the top 10 please let me know. I need when run, your age when ran, distance and time. The older you are the better your chance that you will get in the top 10 and not many women have sent in records.
